

Smith & Wesson®

- GUARANTEED 25 YEARS OF CONSISTENT GLOW
- WATER RESISTANT TO 200M
- PRECISION QUARTZ SWISS COMPONENT MOVEMENT
- 4 YEAR BATTERY
- TITANIUM OR STAINLESS STEEL CASE
- SCRATCH RESISTANT MINERAL HARDENED CRYSTAL
- SCREW DOWN CROWN
- ROTATING BEZEL

Unique technology for unique watches: Smith and Wesson watches are the easiest in the world to read in low light conditions and even in total darkness. Smith and Wesson watches has succeeded in manufacturing a self activated light source that is 100 times brighter then any previous available. The light emitting devices require no battery power or any other form of charging, and never need servicing or maintenance. Smith and Wesson watches are equipped with a tritium light source. These tiny, airtight vials, sealed under high pressure, are resistant to water, oil and the most corrosive materials. A minute quantity of tritium lights up the dye.

These merits have made Smith and Wesson watches an absolute must in the emergency, safety, and protection sectors as well as in the armed forces, but they are also ideal for fans of adventure and sport. Smith and Wesson watches are top quality Swiss component watches, extremely robust, and proverbially reliable. A choice of fashionable colors and timeless, striking designs complete this outstanding timepiece.

BLACK STAINLESS STEEL
SWW-357BSS

GUN METAL STAINLESS STEEL
SWW-357GMSS

ANNODIZED STAINLESS STEEL
BLACK COLOR WILL NOT FADE

Ref. Model	SWW-357BSS, SWW-357GMSS
Model name	Black or Gun Metal Stainless Steel
Movement	Precision Quartz, Swiss Components
Waterresistance	200 meters
Case	Stainless Steel
Bezel	Stainless Steel
Size	45 mm
Case back	Screw on
Crystal	Scratch Resistant Mineral
Crown	Screw Down
Indicators	3-hands (h/m/s)
Strap	Black or Gun Metal Stainless Steel
Date	Date display

Tritium^{T₂}

SELF ILLUMINATING
TECHNOLOGY

Smith & Wesson®

Tritium

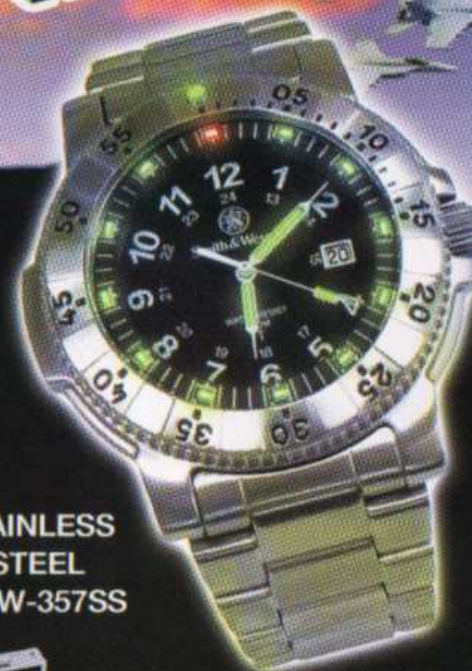

RUBBER STRAP
SWW-357R

NYLON STRAP
SWW-357N

TITANIUM
SWW-357T

STAINLESS STEEL
SWW-357SS

Ref. Model	SWW-357R, SWW-357N
Model name	Rubber Strap or Nylon Strap
Movement	Precision Quartz, Swiss Components
Waterresistance	200 m
Case	Stainless Steel
Bezel	Stainless Steel
Size	45 mm
Case back	Screw on
Crystal	Scratch Resistant Mineral
Crown	Screw Down
Indicators	3-hands (h/m/s)
Strap	Rubber or Nylon
Date	Date display

Ref. Model	SWW-357T
Model name	Titanium
Movement	Precision Quartz, Swiss Components
Waterresistance	200 m
Case	Titanium
Bezel	Titanium
Size	45 mm
Case back	Screw on
Crystal	Scratch Resistant Mineral
Crown	Screw Down
Indicators	3-hands (h/m/s)
Strap	Titanium
Date	Date display

Ref. Model	SWW-357SS
Model name	Stainless Steel
Movement	Precision Quartz, Swiss Components
Waterresistance	200 m
Case	Stainless Steel
Bezel	Stainless Steel
Size	45 mm
Case back	Screw on
Crystal	Scratch Resistant Mineral
Crown	Screw Down
Indicators	3-hands (h/m/s)
Strap	Stainless Steel
